

# Noliflore

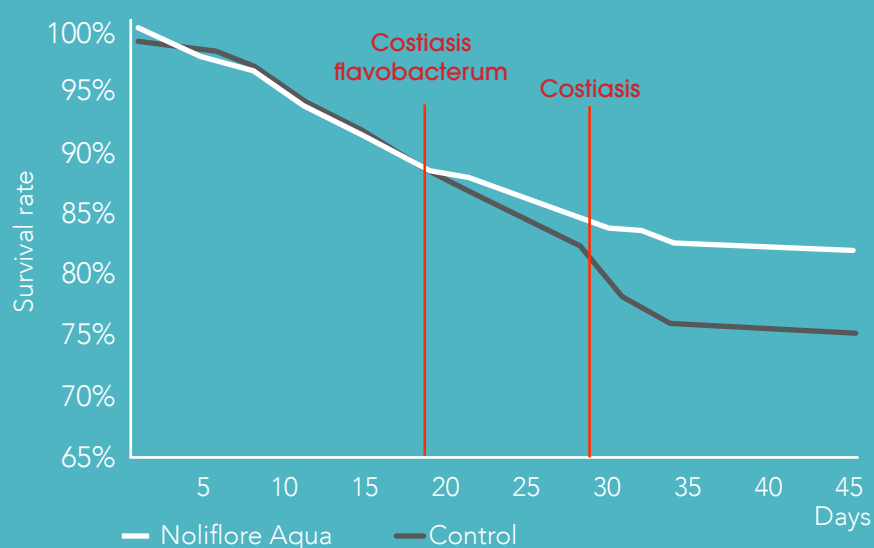

AQUA 

**SALMONIDS**  
**BACILLUS SPP. STRAINS**  
**DEDICATED TO BIOREMEDIATION**  
**IN ALL AQUACULTURE FARMING**  
**SYSTEMS**

# NOLIFLORE AQUA HELPS TO REDUCE MORTALITY IN COMMERCIAL FARMS

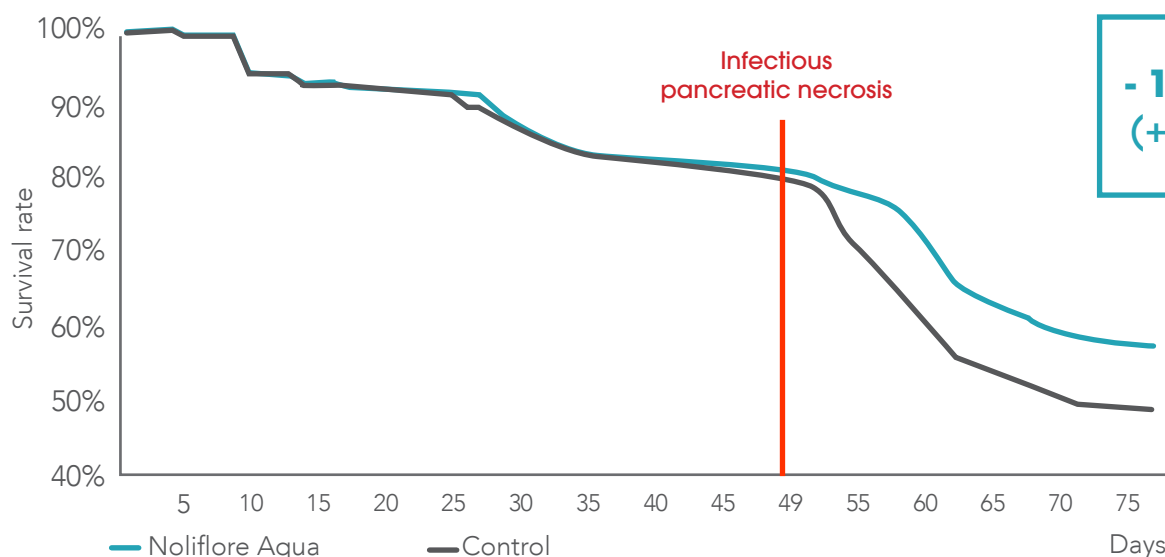

## FLAVOBACTERIUM AND COSTIASIS

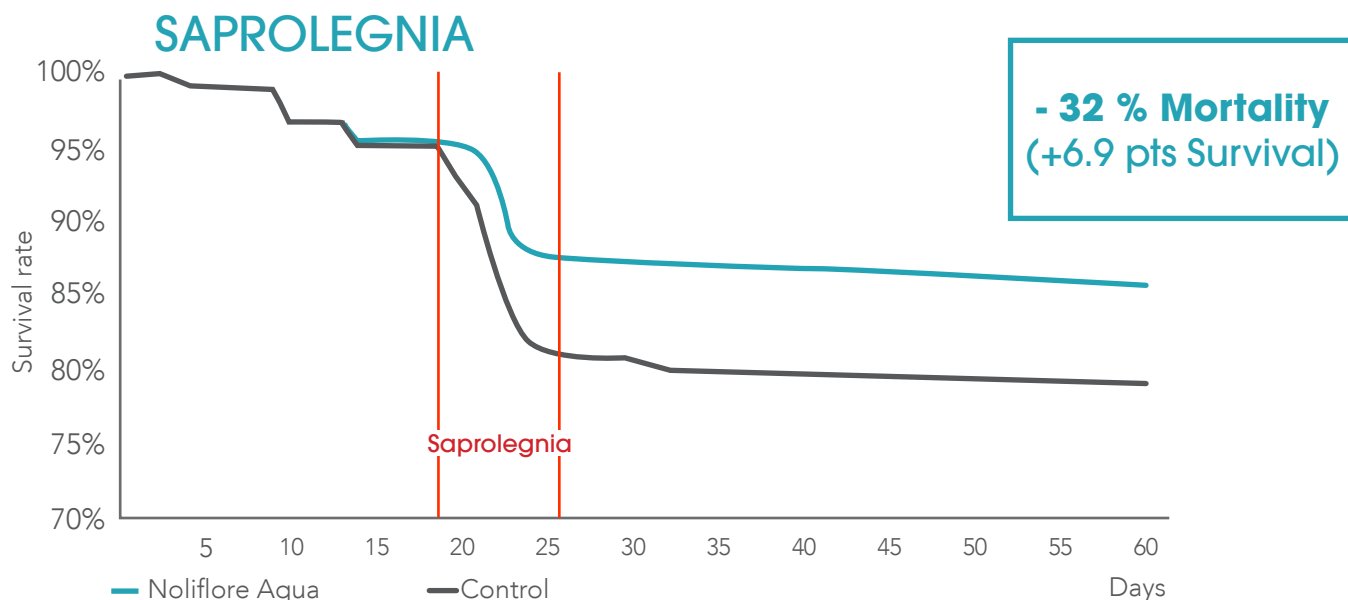

**- 27 % Mortality**  
(+6.7 pts Survival)

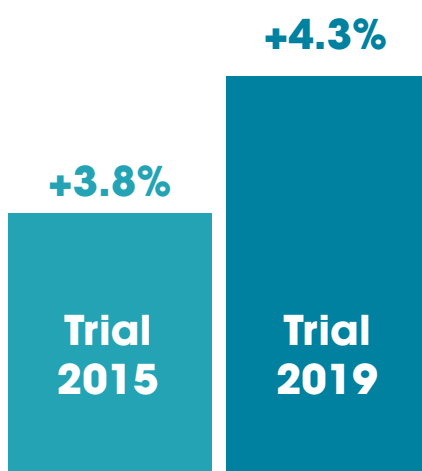

## INFECTIOUS PANCREATIC NECROSIS

**- 17 % Mortality**  
(+9 pts Survival)

## NOLIFLORE AQUA INCREASES THE FINAL WEIGHT OF FINGERLINGS

### APPLICATION

**EGG IMMERSION:** dilute 20 g in the water volume requested to bath 500 000 eggs

**WATER BIOCONTROL:** spread the product directly in the water at a concentration of 10 g/200 m<sup>3</sup> every day during the whole hatchery stage

# NOLIVADE: PIONEER OF BIOCONTROL IN ANIMAL PRODUCTIONS

## BIOCONTROL IN ANIMAL PRODUCTIONS

Nolivade, an Avril group company develops, produces and sells biocontrol solutions (products & services) with microorganisms, for animal productions. These solutions participate in developing Sustainable Animal Health Management. It also contributes actively to animal welfare.

## NOLIVADE BACTERIA

Nolivade flora products are biocontrol tools that help to develop balance within farm ecosystems. They work with « competitive exclusion principle ». They are a combination of different strains of selected *Bacillus subtilis*. Nolivade develops particular protocols for specific application in each animal productions, including aquaculture.

**NOLIFLORE AQUA IS A BLEND OF *BACILLUS* SPP. STRAINS DEDICATED TO BIOREMEDIATION IN ALL AQUACULTURE FARMING SYSTEMS**

## BENEFITS

Thanks to its specific beneficial bacteria selection, Nolimflore Aqua will help to:

- ▶ Secure the eggs environment before hatching
- ▶ Balance positively the fish microbiota and water microflora
- ▶ Improve overall performance (Survival rate and growth) during sanitary challenges

## PACKAGING

- ▶ 200 g bag

## STORAGE

- ▶ Store in a cool, dry and well-ventilated place, in the closed bag.
- ▶ Keep away from substances with antimicrobial activity.
- ▶ Shelf-life: 24 months.

*Product not available in all countries, local regulations should be consulted*
